"I Wanna Be A Homewife"

Visit "[I Wanna Be A Homewife](#)" on MotoLyrics.com

When I was a kid I was a fool
I thought I could fly to the Moon as a spaceman
(spaceman)
I thought that I could catch a star
I wanted to boost the warp speed and rent my heart to
chicks
And go where no one has gone before

I wanna be a « homewife »
Just wanna deal with home life

I was singing my songs along
I thought that Roger Waters would call me on the phone
And tell me « son I love your sound »

I wanna be a « homewife »
Just wanna deal with home life
(i wanna be)

Now I'm a man but still a fool (i want it and i want it
now)
I think you can't rent a heart like you would rent a car
(i want it and i want it now)
I still think that I'll catch a star (i want it and i want it
now)
And I know what it's like when it must be high or low (i
want it and i want it now)
No one seems to be in my tree now (i want it)

I wanna be a « homewife »
Just wanna deal with home life
(i wanna be)
