

## Proxima "My Little Bird Blue"

Visit "[My Little Bird Blue](#)" on MotoLyrics.com

I just wrote this song for you  
My little bird blue  
Seems with a snap of the fingers  
Your Shangri-La has gone away  
You're standing there in the darkness  
Expecting love to come to play  
And barely watching TV  
Raising frustration and despair

I say you gotta fly away  
My little bird blue  
Fly away  
I'm talking to you

You can't go on drifting like this  
Smoking life from day to day  
Please open your eyes and meet my gaze  
Don't believe all what is said  
You know all their speeches are twisted by  
The same spin doctors anyway  
So give me a smile my bird blue  
I'm singing for you

I say you gotta fly away (i've been wasted you've  
been wasted you and i both have been wasted)  
My little bird blue  
Fly away  
I'm talking to you
