

Proxima "The Butterfly Effect"

Visit "[The Butterfly Effect](#)" on MotoLyrics.com

In this life we can be sure of one thing
It's that we're all gonna die alone
And among this tragedy we're the heroes
Of our doubts fears and innocence my dear

As I'm awakening with eyes wide open
Can see the dreamers all around
They're stuck in a cold silly story
Where they're trying to hide behind their role

Well well pretty butterfly how you doing
A blink of your eyes brings a thunder in my heart

I know there's nothing more important than
I love you
And your sweet smile is worth a try / but your refusal ?
I risk my life on this heart beating email
Chaos theory applies in my mind my dear young lady

Well well pretty butterfly how you doing
A blink of your eyes brings a thunder in my heart
