"Time Stood Still"

As the world was turning round
There was an endless moment
When time stood still
I lost my recklessness

I met so many muses
Made love so many times
I didn't know
I still could fall in Â...

Actors are playing their roles
I pretend to feel nothing
But your sweet smile is still in my heart

Can't look you in the eye
Don't write you anymore
Just stand here
On this red sofa

Actors are playing their roles
I pretend to feel nothing
But your sweet smile is still in my heart
Yes your sweet smile is steel in my heart
