"My Birthday Was Not The Same"

It's 12 O clock sharp
When you called me and said "Happy Birthday!"
And so my closed friends half an hours later
So do you remembered
When you were kids
Give and receive presents
Give and receive presents

My birthday was no really the same
My birthday was not really the same
It's tiny celebration
With no party at all
There's only some food
And little inspiration
Cuz right now I'm 25 and still learn to survive
My life begin at my 25
My 25

I passed good times
I passed bad times
I passed first time I learn to write a song
Cuz my birthday was not the same I still remember
I still remember

My birthday was no the same
