it's getting cold, i'm so alone  
start to roam, get drunk tonight  
i'm still waiting for my flight  
never got hard i tried

bridge :and i suffer everynight  
everything is allright 3times

refrain :  
seems to be that you're the one for me  
living without you will mean a life in agony  
nothing is allright today

always trust in the name of love  
never thought there is something above  
lived my life in harmony now i can see my enemies

refrain

strophe 1 again
