Time has come - we all know
we all know where to go
This is the time when a nuke means
the end.
A million weapons -
a million ways to die
To die for ideals that I deny
No I won't try, try to save my head
Because I know the living will envy
the dead.

Pre-chorus:

Where do we go - where do we turn to
is there really nothing we can do
our self deception is never ending
No need to panic - we're still standing

Chorus:

At the abyss

-here we are, here we go
-tomorrow one step further
-the judgement day is coming
-our planet is commen grave

The case is clear - we know the facts
We know for sure - what it takes
To taxicate our planet, our living space.
We got the chance, to change
our habbits.
But fame and fortune are leading
our instincts
We're prisoners of our pseudo
intelligece destroy ourself with
greed and ignorance

Pre-chorus

Chorus
