"Learning To Fly"

Visit "[Learning To Fly](#)" on MotoLyrics.com

You know it's not easy
Whatever you're hearing
Do I just stop to tell you again
Or has it all been in vain
If we never believe it can be
What we need it to be:

Stop talkin' about little things,
Runrun' round silly rings:
Talk about Big Bang
Living your life on a wire
Leave your old world behind
If we get to the plate on time

I'll be learning to fly again
Without the benefit of strings
You'll be the wind beneath my wings
I'm learning to fly away
Life at the speed of sound
You're all around, you're on the ground
You know it's not easy
Whatever you're hearing
Living your life on a wire
Leave your old world behind
If we get to the plate on time
