The fire in which you burn was set by us.
And you have no say, succumb to our power.
The almighty kings have complete control over your life
and destiny.

I could end you with a snap, with a snap of my fingers.
I could end you with a snap, with a snap of my fingers.

The way things should be. The way things should be.
Think about it every day, I think about it, every day.

I just want to feel that way again. (Again! Again! Again!
Again!)

I just want to feel that way again. (Again! Again! Again!
Again!)

I just want to feel that way again. (Again! Again! Again!
Again!)

I just want to feel that way one more time (Again!
Again! Again! Again!)

I won't lose it this time. I won't lose it this time.
I won't lose it this time. I won't lose it this time.
I won't lose it this time. I won't lose it this time.
