Bending backwards. I'll help you get through.
Seeing you this way. I've never cared so fucking much.
And for a second just let me let you see
that I'm here to stay, and that we can get through
anything.
Have faith in anything cause it's me and you vs. them.
Have faith in anything cause it's me and you.
I feel the pressure. People have shit to say.
Then try to get to you behind my back when I'm away,
but you don't hear them 'cause you know we're a team.
So just look forward.
You know how much you mean to me.
Have faith in anything cause it's me and you vs. them.
Have faith in anything cause it's me and you.
Don't sweat it cause it's me and you vs. them.
