Hey, we gotta stay strong. (Let's go! Let's go!)
Been playing games for too long. (Let's go! Let's go!)
You gotta stay true to you. (Let's go! Let's go!)
Think of all the shitty things you've been through.
I know you will.
How can you say let go? Things were going so well.
Cannot lie to yourself. There's gotta be a better way.
There's gotta be a better way!
When your sanity's at stake (Let's go! Let's go!)
You bend and bend until you break. (Let's go! Let's go!)
Second guess yourself again. (Let's go! Let's go!)
Think of all the shitty things that happened.
Times them by ten.
How can you say let go? Things were going so well.
Cannot lie to yourself. There's gotta be a better way.
There's gotta be a better way.
There's gotta be a better way.
There's gotta be a better way.
Once in a row I let things go.
It got me nowhere. My brother just stared.
Plenty of time to ruin my life, so why start now?
Why start now?
Plenty of time to ruin my life, so why start now?
Why start now?
Plenty of time to ruin my life, so why start now?
So why start now?
