Visit "[Sailor Tattoos](#)" on MotoLyrics.com

train station knows every word you say  
vacation from all the games you played

[chorus]

i turn away, long island's calling me  
i lost it all, my clothes smell like the city  
leave me for dead, the train will get me home  
drag me away, i don't know what's good for me  
i don't know what's good for me

every bone in my body breaks for you  
believe me, cause by now i can barely move

[chorus]

i turn away, long island's calling me  
i lost it all, my clothes smell like the city  
leave me for dead, the train will get me home  
drag me away, i don't know what's good for me

i turn away (long island's calling me)  
i lost it all (my clothes smell like the city)  
leave me for dead (the train will get me home)  
drag me away (leave me)
