Billy Simon & Wayne Kirkpatrick
Solid concentration, taking careful aim
Reaching for the source of the love in my life
Made my confirmation, you are who I choose
To be the reason for all the love in my life
I don't want waver, or lose my ground
I don't want to speed up or slow down, got to
Chorus
Keep it constant, driven by your love
Learn to pace myself to stay in step with you
Keep it constant, never out of touch
Reaching for the light you have drawn me to
Heavy motivation you inside my life
To be in touch with you is a terminal goal
You're my power station sending out a wave
A strong desire to take on a permanent role
I don't want to waver
And I don't want to lose my ground
I don't want to speed up or slow down
Repeat Chorus
