One more shot
And then I'm over and out
I'm gonna show the non believers what I'm talking
about
One Shot
And then I'm under and gone
I'm gonna show the non believers they are nothing but
wrong

One more way to make it easy for you
Know I'm gonna make it rough until the end
One less way I have to do this for you
Nothings gonna bring me around the bend
One more way to get the messaging cross now
I gotta do this on my own
One less way I've gotta prove this to you
One less way
Gone

I've (One more shot) been resurrected
One more shot
And then I'm over and out
I'm gonna show the non believers what I'm talking
about
Ooh, I've (One more shot) been resurrected
One more shot and then I'm under and gone
I'm gonna show the non believers they are nothing but
wrong
Until the day I die

One more way to make it easy for you
Know I'm gonna motivate till the end
One less way I'm gonna do this for you
No one's gonna bring me around the bend
One more way to get the messaging cross now
I've gotta rule this on my own
One less way I have to prove this to you
One less way
And I'm gone

I've (One more shot) been resurrected

One more shot
And then I'm over and out
I'm gonna show the non believers what I'm talking
about
Ooh, I've (One more shot) been resurrected
One more shot
And then I'm under and gone
I'm gonna show the non believers they are nothing but
wrong
Until the day I die

I've (One more shot) been resurrected
One more shot
And then I'm over and out
I'm gonna show the non believers what I'm talking
about
Ooh, I've (One more shot) been resurrected
One more shot
And then I'm under and gone
I'm gonna show the non believers they are nothing but
wrong
Until the day I die
