Look up so i can
see your face and maybe
i can try to make you smile
Look up because
its no disgrace and baby
im allowed to see you cry

(chorus 1)

I always said you wouldn't have far to fall
to the bed where i'd be waiting
i'm the place where you go
im your pillow
but i didnt sleep much last night
so i'll dream of you today

Its amazing how you give your all for me
i can imagine life being better than this
i've just gone and offered my whole world to you
and all you ever ask is nothing more than a kiss

(Chorus 2)

I always said there is magic
in our space
every day for a lifetime
im inspired by you
and all you do
But i didnt sleep much last night
so i'll dream of you today

(Instrumental)

(chorus 1)

I always said you wouldn't have far to fall
to the bed where i'd be waiting
i'm the place where you go
im your pillow
but i didnt sleep much last night
so i'll dream of you today
