The Crystal Haze, i float around
Could not erase, im feeling down
On my Long Sunny Daze.

I wont betray what i have seen,
portrayed in all acidic dreams
my Long, my Sunny, Sunny Daze

(Bridge)
Nowhere near im out of reach
the stars are touchin the soles of my feet
sittin here im gettin old
singin along with the radio

(chorus)
I want you here so you can see
just what this daze can do to me
sittin around were gettin old
singin along with the radio

My mind is lost within this maze
another trap, the latest craze
all built around
my Long Sunny Daze

(Bridge)
Nowhere near im out of reach
the stars are touchin the soles of my feet
sittin here were gettin old
wastin' our lives but we just cant be told

(chorus)
I want you here so you can see
just what this daze can do to me
sittin around were gettin old
singin along with the radio
whoohaa.....
