What goes on between the hospital and heaven?  
What goes on between two and eighty seven?

I guess we'll never know  
and when you die i told you so,  
It teaches you to grow  
To cry..

What goes on between the headstone and the  
hardman  
He'll dig away on solid ground

to find his peace  
he'll say a prayer for them  
the one's he covers  
and they get lost between the hospital and hell..

I guess we'll never know  
and when you die i told you so,  
It teaches you to grow  
To cry..

you cry..

Chours x 2
