Verse:

There's a place I know
With notes on the wall
Written signs of love

I go there and read
the only thing that I see
Drawings of you and me
of our memories

your feelings for me

You are an open book, but I only read chapter one
I have a photo of you in my mind its black and white

Chorus:

If I had to write a song
To which the heart beats and the eyes meet
I would use no moderation
Nor words in harmony

I just want you to know
In this room I've read them all
Lets put those two together
I told you they will last forever

Verse:

Those days have passed
You thought we'd never last
The notes are in the past
And time went so fast

Chorus:
