On the lips on the mouth on the floor reaching out  
On the carpet on the ceiling no more words no more  
feelings  
Just a desperate lover's call  
Hear their heart beat through the wall  
Things are different when you're dead  
I'm the figure you're the head

And I got a notion things are in motion  
I got to know soon 'cuz i got a fever that could dry up  
the ocean  
So much emotion i gotta know soon  
'Cuz I got a feeling if you wanna get broken I'm open  
are you

Like a car crash in the brain  
See the fog lights in the rain  
Things are different when you're dead  
I'm the figure you're the head

Yeah I got a notion things are in motion  
I gotta know soon 'cuz i got a fever that could dry up  
the ocean  
So much emotion I gotta know soon  
'Cuz I got a feeling if you wanna get broken  
So much emotion I gotta know soon  
'Cuz i got a fever that could dry up the ocean  
All this commotion I gotta know soon  
Cuz I gotta damage if you wanna bleed

I got the damage if you wanna bleed  
Bleed with me  
Come on and bleed with me
