Break down
Drag it all around
You're boss
So nail it to the cross

Break down
Drag it all around
You're boss
So nail it to the cross

We've got nothing to lose right now
Because we've got nothing to gain
We've got nothing to lose right now
Because we're just here for the pain

Hold on,
Tonight if it feels right
Hold on,
If the (?) gets too (?)
Tonight if it feels right
Don't believe it's (?)
Oh, oh

Hold on,
Tonight if it feels right
Hold on,
If the (?) gets too (?)
Tonight if it feels right
Don't believe it's (?)
Forever (?)

Break down

You're boss
So nail it to the cross
