We're nothing special
We're nothing new

We're just waiting for answers to similar questions
Like:
Why am I here and will anyone love me?
And when I am gone just where am I going
Is it somewhere I'll never need to be lonely again?

Pick up the phone
Come on I need to know so
Come on pick up the phone
Cuz I don't wanna be here like this anymore in a heap
On the floor
So just rattle your bones and I'll be at your door for
Some more
So come on pick up the phone
And we'll share the night together...
Alone

And when I am staring I'm just really preparing
To ask you a favor can I borrow you later?
And when I repay it don't ask me to say it
(Cuz I don't wanna notice when the onus is really on
Me)

Pick up the phone
Come on I need to know so
Come on pick up the phone
Cuz I don't wanna be here like this anymore in a heap
On the floor
Just rattle your knees like the birds and the bees
Saying please
Come on pick up the phone
And we'll share the night together...
Alone
