Say It Again.....

I know I heard you right

I've been lying awake at night

Thinking about three words you said to me. (Said to me...)

I know it's hard that you

Sometimes you've got to let the feelings through

I want to know exactly how you feel (oh yeah)

I tried to be patient

And give you a little more time

Now I need

To be sure

What's on your mind

Say it Again (Say it)

Say those words I heard you whisper

Say it Again (Say it)

When last night we were together

Lying next to me

You said to me

Say it..Say it again

I knew right from the start

You were living with a broken heart

But baby I knew it'll take some time to heal (Time to heal)

But now I must confess

The way your filling me with happiness

Fell that we could be starting something real..oh yeah

I tried to be patient

And give you a little more time

Now I need

To be sure

What's on your mind

Say it Again (Say it)

Say those words I heard you whisper

Say it Again (Say it)

When last night we were together

Lying next to me

You said to me

Say it..Say it again

I just need to be sure

(That your mine forever)

All I'm asking you for

(Tell me whether)

I should be trusting in you

Tell me what you whispred is true

(ohhhhhh...say it x5 (echo))

Say it Again (Say it)

Say those words I heard you whisper

Say it Again (Say it)

When last night we were together

Lying next to me

You said to me

Say it..Say it again
