"Beautiful Prince"

My beautiful prince of my dreams.
My beautiful prince of the shadowland.
Together with you I feel secure.
You are all I need.

My gentle prince, your embrace gives me warmth.
My gentle prince you make me whole.
Your words heal my injured mind.
You mean everything to me.

My charming prince the shadows fade.
My charming prince and so will you.
Every farewell causes more pain.
My life is filled with sorrow.

My beautiful prince.....
Where are you now?
My beautiful prince.....
I love you so.
I love you so.
