"Our Dream"

Visit "[Our Dream](#)" on MotoLyrics.com

The gracious shine of the moon
It gently caresses my hand
It's cold and strange, yet peaceful
Its shimmer fills the land
The only lights now shining
Are our hearts from within

This kingdom welcomes me
For it is our place to be
Hear the silence, calm and rest
It's our realm of love and death

Our dreams, they colour my night
Feeling your purity inside
You truly hold my heart
I hope we'll never be apart
Your love, the best I'd ever known
I'll keep it inside, for my own

This kingdom welcomes me
For it is our place to be
Hear the silence, calm and rest
It's our realm of love and death

Did it always had to be?
What we'll never comprehend
How life treated you and me
We will never understand
