(Jian)
there are new and old sources
we can use to get power
they'll generate clean energy
and not be devoured

from capturing the wind
to a hydrogen cell
to harnessing the sun
in all the places we dwell

(Jian and Dave)
we must learn how to live with more alternatives

(All)
energy
it's the pulse of life
it's what makes the world
go round and round

energy
the single theme of life
that weaves everything
into common ground

energy
it's the pulse of life
it's what makes the world
go round and round

(Dave)
round and round

(Others)
round and round

(Dave)
round and round

(All)
energy
