(All)

You're the last of a breed and it's begining to stink
So you take to the clouds with your bible and drink
The proclamation was made, the proclamation was
felt

There's a new notch on your belt
Very carefully you've protected your house
Now there's no getting out

(Chorus)

It's too cold
It's too late
It's too far

(All)

There's a lovely house on a lovelier street
There's a burning star but it's giving no heat
To the sting that was felt on the back of your hand
Now someone's lost command
Very secretly you've infected your house
Now there's no getting out

(Chorus)

It's too cold
It's too late
It's too far

(Background sung during the chorus)

Lonely at nightfall
Bad dreams of rag dolls
When the bough breaks
The earth shakes
No one hears at all

(Additional background sung by Mike during the
chorus)

You're such a lucky bastard
I hope I didn't scare you
We did not do nothing to you
Leave you alone
Leave you alone
