

Quinn Walker "My Road"

Visit "[My Road](#)" on MotoLyrics.com

They were the best years of my life
Its true The suffering shapes you
And without your love
I would never have made it
Thats the truth
I didnt know it at the time
But its about the journey
You got to appreciate each day
And you were there to help me

I never want to go home from this life;
It's my road
It my cross to bear
I never felt so alone in my life
On the road you are always there
On the road you are always there

They were the best years of my life
Its true the suffering shapes you
I didnt know it at the time
And without your love
I would never have made it
Thats the truth
