Another day down-Another day down
Another day down-Another day down
So you're just another cog in a bigger wheel
A roll of the fuzzy dice, to a better deal
Can't seem to get a grip, on the way you feel
It's all too real
Another day down-Another day down
Another day down-Another day down
You've got a job to do, so you get it done
You work from the crack of dawn to the setting sun
Wish that you could hang around, but you gotta run
So much fun
Another day down-Another day down
Another day down-Another day down
Oh the clock just keeps on ticking till you realize you've
ground
Another day down
You tell yourself that everything will be alright
You close your eyes and sleep another dreamless night
(solo)
Oh the clock just keeps on ticking till you realize you've
ground
Another day down-Another day down
Another day down-Another day down
Oh the clock just keeps on ticking (Another day down-
Another day down
Oh the clock just keeps on ticking (Another day down-
Another day down)
Oh the clock just keeps on ticking (Another day down-
Another day down)
Oh the clock just keeps on ticking (Another day down-
Another day down)
