Broken down on this lonesome highway  
Just my luck that you were headed my way

(Together)  
We drive off into the night  
(Wherever)  
Wherever we end up will be alright

I will follow you down wherever you go  
Through every twist and turn in the road  
I will follow you down wherever you go

The open air and the stars above us  
There ain't a thing that can come between us

(Remember)  
We were strangers yesterday  
(Tomorrow)  
We could change our lonely ways

And I will follow you down wherever you go  
Through every twist and turn in the road  
I will follow you down wherever you go

I will follow you down wherever you go

I will follow you down to the end of the road  
I will follow you down to wherever you go

I will follow you down wherever you go  
Through every twist and turn in the road  
I will follow you down wherever you go

I will follow you down wherever you go  
All the way to end of this long running road  
I will follow you down wherever you go

I will follow you down  
I will follow you down  
I will follow you down
