I'm all alone when the sun goes down
What I wouldn't give to have someone around
The night are endless and dreams are a few
But when they come, well they never come true

...So it goes
No one even knows the pain behind the smile
How all the while I'm crying

Save me, someone save me
Save me, someone save me
'cause I've been savin' myself for her too long
It's time I'm movin' on
Someone save me

Too many memories in this old town
My face turned up to meet the rain
The rain that's fallin' down

Save me, someone save me
Save me, someone save me
'cause I've been savin' myself for her too long
It's time I'm movin' on
Someone save me

Are you gonna be the one to make it right
Or am I only dreamin'

-Chorus out
