Well, she never was the best
Yeah, at following the trends
Stayed one step above the rest
And even though it seemed

Like the world was crushin' on her
Didn't let it hold her down
Even hold her back, oh, no
Don't worry you'll show them

There's a fire in your eyes
And I hope you'll let it burn
There's a scream in your voice
And I hope you will be heard

There's a fire in your eyes
And I hope you'll let it burn
Until you're heard, you're heard

Seventeen is just a test
Yeah, and I would recommend
That you live with no regrets
And even if it seems

Like the world was crushin' on you
You shouldn't let it hold you down
Shouldn't hold you back, oh no, whoa
Don't worry you'll show them

There's a fire in your eyes
And I hope you'll let it burn
There's a scream in your voice
And I hope you will be heard

There's a fire in your eyes
And I hope you'll let it burn
Until you're heard, you're heard

Relax girl, turn down the lights
No one can see you shining
Relax girl, it'll be alright
No one can stop you if you tried

Point of rhythm is the fall await in time
To listen to the beating in your mind
And if you will seek then you shall find
Whoa, oh

There's a fire in your eyes
And I hope you'll let it burn
There's a scream in your voice
And I hope you will be heard

There's a fire in your eyes
And I hope you'll let it burn
Until you're heard, you're heard

There's a fire in your eyes
And I hope you'll let it burn
There's a scream in your voice
And I hope you will be heard

There's a fire in your eyes
And I hope you'll let it burn
Until you're heard

Until you're heard
Until you're heard
