You could be the song that plays in my head  
The one that I sing when I dream  
From the time I wake  
To the time that I sleep  
I find myself in you

And the way you speak  
It's like you sing to me  
And the world that I've known fades away

I'm lost  
Where am I again  
All I know  
Is that I'm with you  
Keep me close, only fine with you  
And I'll stay, where you are with me

Everywhere I turn there you are, there you'll be  
It's you I see always  
Way up in the stars and down below [the stairs]  
We'll be dancing with the wind

And as you take my hand  
You bring me somewhere new  
And in words I can't explain

I'm lost  
Where am I again  
All I know  
Is that I'm with you  
Keep me close, only fine with you  
And I'll stay, where you are with me

I'm lost  
Where am I again  
All I know  
Is that I'm with you  
Keep me close, only fine with you  
And I'll stay, where you are with me
