"Little Animal"

Visit "[Little Animal](#)" on MotoLyrics.com

My girl is a little animal
She always wants to fuck
I can't find the reason why
I guess it's just my luck

So at night when she's sound asleep
I head out in the rain to meet

All the things she never gave
To me when I was down
All the things I had to find
With strangers in strange towns

But at night when she's curled up next to me
I head out for the devil to meet

But at night when she's curled up next to me
I head out for the devil to meet

But at night when she's curled up next to me
I head out for the devil to meet

My girl is a little animal
She always wants to fuck
I can't find the reason why
I guess it's just my luck

So at night when she's sound asleep
I head out for the devil to meet
