"The Beat Dies"

Adored your picture a 1000 times
You still think I was out of line
The meanest thing that I ever did
Was asking you for another hit

The first love you can't escape
The second love feels like rape
A giggly smile night pale face
I hear you whispering hope he stays

The beat dies silence
Stay here with me
With deathly face
I'm in love

They file to lovers sad
We walk from bar to bar mad
The first kiss don't think thereof
The second kiss and you're in love
