Fall to electrical ears, electrical ears  
And scream your secrets to the ceiling, love  
Fall to electrical ears, electrical ears  
And let me see if you can stay afloat

I've been told, it's old. it's wrong to second guess, I will  
simply stress.  
To the fact and the reason that I can now give me facts,  
Baby tell me that I can now try, and if it really hurts you,  
Then is it worth it to you? No.

I cannot lie, I'm only human too  
But I will shake shake shake  
If you can fake fake fake  
Oh if you ask me I will see this through  
And I will never sing again, in all my resentment.  
In all my resentment.

Fall to electrocution, I'm your solution  
I come in hats off, I come in shades on  
Fall to electrocution, I'm your solution  
Baby I'm free, dollars are dead to me

I cannot lie, I'm only human too  
But I will shake shake shake  
If you can fake fake fake  
Oh if you ask me I will see this through  
And I will never sing again, in all my resentment

Promise we find love in notes and lines  
Promise we find love, kept perfect time  
Can you see me in the sky?  
Patchwork clouds and neon signs  
I will never doubt myself again.  
Promise you'll never doubt yourself again.

Moments come and moments go,  
We can lose control  
You said "sweetie, let it roll"  
I'll break before I fold  
I will never doubt myself again

She will come around when I ask for...  
We all tear the page from the center to you,  
I hope I'll be your lightbulb  
I'll hope may this song be your lightbulb

I cannot lie, I'm only human too  
But I'll take love for love, and if you love me too...  
I cannot lie, I'm only human too  
But I will shake shake shake  
If you can fake fake fake  
Oh if you ask me I will see this through  
And I will never sing again, in all my resentment

We feed off feeling, and you know it's true  
But I'll take love for love, and if you love me too  
Show me emotion and I'll follow through  
I wouldn't trade the world for this  
And all it's beginnings

Fall to electrical ears, electrical ears  
Fall to electrical ears, electrical ears
