You came into my town
You came and you fell down
Sweet summer all around
Can you feel it going down again?

Spend some time with you
Don't care what you wanna do
I wanna find some words to say
Come on and make me stay

Come on and do your thing
Come on and make it go
Sometimes it feels like rain
All the time it feels like pain
Time

You came and you fell down
You came into my town
Sweet summer all around
Can you feel it going down again?
Can you feel it going down again?
Can you feel it going down again?
