"Young And Cold"

I saw it you and me in time apart
I get a shiver from broken hearts
I like the sun when it don't shine
I make it hard on anyone
so many restless souls
I don't wanna be young and cold
I don't wanna be young and cold

In the roll, in the spring time dusk
I love you way too much
so I wonder where to go
when love moves way too slow
so many hearts they will explode
I don't wanna be young and cold
I don't wanna be young and cold

All this talk is a waste of time
'cause in dreams you're always mine
why'd you burn with such delight
a leap of joy will make it right
so many times I've lost control
I don't wanna be young and cold
I don't wanna be young and cold

I saw it you and me in time apart
I get a shiver from broken hearts
I like the sun when it don't shine
I make it hard on anyone
so many restless souls
I don't wanna be young and cold
I don't wanna be young and cold

So many restless souls
I don't wanna be young and cold
I don't wanna be young and cold
