She told me today
I'm in your way
She thinks your heading somewhere
You've a long way to go
Even more than she knows
She thinks you're half the way there
You've learnt nothing much at all
No doubt you told her that you stayed with me through
pity
Honourable you
Oh go away
Make it easy on yourself
Tell them I let you down
I'm not the girl you met
Oh no
And if I smile just a little
Forgive me but I read that book as well
And I know
You now
Oh now I'm so intrigued
Your life's such a read
It much be torture for you
Unlike one such as me
You don't understand at all
You move amongst us like some alien higher being
Skimming no plane but yours
So go away
Make it easy on yourself
Tell them I'm off my head
I keep you from yourself
And I
Can't help but smile just a little
Remembering all you choose to forget
And I know
You know that I still feel the world revolving miles
beneath my feet
You and I were hapless space cadets
Mirrored when we meet
When I was coming down you let me fall alone
You've learnt nothing much at all
YOU move amongst us like some alien higher being
Seeing no pain for yours

Oh go away
Make it easy on yourself
Tell them I let you down
I'm not the girl you met
Oh no
And if I smile just a little
Forgive me but I read that book as well
And I know
You know
