She said something like I want to go down where the
river's wild
He said take me then I want do drown deep in your
violent eyes
(feel the water rise again, call the river by your name)
I want to float in through your door
Hand it on the wall, hang it all
But I wanna be sure of one thing
That I'm getting into something peaceful
I want to fly in on your wing
Way way up here I don't care for anything
It's all in, and I'm not afraid I don't fear
Falling
She said listen I've been telling you I'm into something
cruel
He said give me what got into you I don't care what you
do
(if there's a full moon in Taiwan I want half of what
you're on)
I want to open up your mind
Leave it all behind you and a me we're one of a kind
we may find that we're getting high on something
peaceful
We're gonna take it for a ride
Goin' nowhere fast but we got nothin' to tie ourselves
on
And I'm not afraid to go down
Falling
She said something like I'm tired of me
You've got to paint my face
He said fold up like a paper boat, set sail for me again
I wanna fly in on your wing
Way way up here I don't care for anything, it's all in
And I'm not afraid I don't fear
Falling
