"She Never Felt Alone"

Through all our days
In tender ways
Her love for us was shown
And so, you see
We can't leave her alone

She's always say
That we're the greatest
Treasure she could own
Because with us
She never felt alone

Her troubles would disappear
Long as she could have us near
Darling, can't you see
We're her only family!

Her days were filled
With happy hours
Although her youth had flown
And that is why
She never felt alone
