Don't Despair

VERSE 1

What's in a color man, can somebody tell me that?
How shallow are for just looking saying he's a rat
You judging someone else, but you can't even judge
yourself
Take the dust out of your eye, then maybe then you
could see right
That it ain't about color of skin,
Or dogging somebody cause of where they live
Soulja ain't even having it, oh what you gonna do
when the hammers
hit
I know how it's to be looked like, looked like as if if
you a piece of
trash
I know how it's to be looked like, like you ain't even
worth two-fifty
cash

CHORUS

Don't Despair... I won't despair...
Use your best to shine...
Give it all you got inside...

VERSE 2

You can't let the suicidal thoughts, pollute your brain
Russian roulette took my friend's life, it ain't no
game
16 years old man, I can't believe that he passed away
Once I heard Ricardo had died I got down on my knees
to pray
Say it ain't so. It's too surreal how could this have
happened?
He never even got the chance to really grow or see me
rapping
Don't be another victim of the struggle that we go thru
Clouds might be surrounding ya, I've made it you can
make it too

CHORUS

Don't Despair... I won't despair...
Use your best to shine...
Give it all you got inside...

VERSE3

Tell me are ya lonely, depressed or just feeling down
You feel your life is one big mess going around and
around
Can you be forgiven for all those bad things that
you've done wrong
Even with temptation in your mind going on and on
I've done my share I've done my wrong but yeah
I'm still here
God helped me thru all those failures pains and them
tears
You can relate to this because we all are breathing
You can be the best you can be the one, just keep
believing

CHORUS

Don't Despair... I won't despair...
Use your best to shine...
Give it all you got inside...
