### Give You My World

#### Verse 1

The A team gonna kick it with a bass theme  
Sound junk in my trunk vibrate and bassing  
Feeling good, feeling real great  
Made a man of myself I don't have time to hate  
Don't have time to be watching you shine  
I go out and get it myself, cause I get mine  
See I'm the type that'll take up the lead  
Just looking up to the sky when Freez having a need  
I've come across barriers in my lifetime  
And I broke thru them when I was use using my right  
mind  
Get with the crew don't settle for less  
Stop playing with the c team start playing the best  
Raising the standard of the bar up in this  
Raising the status old class dismissed  
We cruising on down streets and highways  
Soulja City is the city make a brand new day

#### Chorus

Boy would you let me see what you're about  
Cause I need to find a love that's down  
Would you see me thru these troubled times  
Cause I'm giving you my world and all that's mine

#### Verse 2

Be there always be there  
Walking hand in hand we make the perfect pair  
Let me rephrase that wonderful soulmate  
Make you melt right there and making my soul shake  
Battling dragons call me your prince  
Your pretty princess smile is all that I miss  
Think about you when my day gets tough  
Sweet thang there for me when the road gets rough  
I don't have time to be playing games  
Cause I left that life when I was in the 10th grade  
With me and the crew girl you'll have it made  
Lounge your seat back a little for a dip in the shade  
Kick back for a bit til it's time to ride  
When we ride I trust you so in you I confide

Cast a rope in the sky Iâ€™ma give you the moon  
Ask for anything boo ainâ€™t nothing I canâ€™t do

Chorus

Boy would you let me see what youâ€™re about  
Cause I need to find a love thatâ€™s down  
Would you see me thru these troubled times  
Cause Iâ€™m giving you my world and all thatâ€™s mine

Verse 3

Starting off never had that much  
But saving nickels and dimes always gave me enough  
I spent chedda when I had no money  
Did it all just cause just to call ya honey  
Driving a hoopty in my high school years  
Take time to reflect took a look in the mirror  
Took a look in your material eyes  
And said its now or never either hello or bye  
Tell me something are you down for me  
Like Iâ€™m down for you or maybe can this be  
An illusion contusion my brain  
I want a sweetie I can call when the storm brings rain  
Loyal and true thatâ€™s all I know  
What goes around comes around faithfulness I sow  
Wherever you are Iâ€™m waiting for you girl  
Be real stay true Iâ€™m giving you my world

Chorus

Boy would you let me see what youâ€™re about  
Cause I need to find a love thatâ€™s down  
Would you see me thru these troubled times  
Cause Iâ€™m giving you my world and all thatâ€™s mine
