Me

Chorus

There's so many lives that I can live
There's so many rhymes that I can fib
There's so many times I don't wanna live in my skin
There's so many people I can be
And I've so many faces you can see
And I've so many voices that I can sing but I can't
I gotta be me

Verse 1

From the depths of the sea to the stars in the sky
To the universal concussion I'm wondering why
Ya make break yourself so myself will try
To be spiritually physically mentally fly
Like the logo on your jersey rap game's official
Although them rappers could act artificial
But me, who oh me, I gotta be me
Like I gotta go to work in order to pay my fees
To be or not to be that is the question
Hence the Shakespeare Relikis rhyming infectious
Christ is my Rock on ya neck like a necklace
Going thru life insane like a driver who's reckless
The best is not yet here still to come
I'm having fun it hasn't even begun
Just confide in Him until the battle is done
Then glance at the other team and say we won

Chorus

There's so many lives that I can live
There's so many rhymes that I can fib
There's so many times I don't wanna live in my skin
There's so many people I can be
And I've so many faces you can see
And I've so many voices that I can sing but I can't
I gotta be me

Verse 2

Sometimes I really feel like I'm walking the plank
If I don't conform to this world there goes my estate
I can't worry too much my wearied worries will worry
me

If He never fed the birds then where would the story be
I think about the little gifts in life
Like your personality and if it fits ya right
And I might just be the one I can be the one
As long as ya look up and see the Son
Keep on keeping on is what my momma told me
Stay real really real is what my father sold me
Oh me oh my I don't owe ya nothing
And I ain't Santa Claus but I'll ma give ya something
Wait for it now here it is okay
A chance at a new life and a brand new day
The tears in your eye reflect the trouble and pain
Like ya need Him rap needs treble and bass

Chorus

There's so many lives that I can live
There's so many rhymes that I can fib
There's so many times I don't wanna live in my skin
There's so many people I can be
And I've so many faces you can see
And I've so many voices that I can sing but I can't
I gotta be me

Verse 3

Take a trip into the mind of an emcee
You probably thinking that it's ladies cars and money
Well money fades and everybody gets older
Gasoline's so high I can't be sporting a rover
I follow things that stand the test of time
Like your soul keep searching I'm investing mine
The rest is I guess yours, my choice was rhyme
To sell throughout stores and then get signed
At the same time yo I'm giving a message
It's a breathe of fresh air cause I'm real and I meant
it
Ever tell you a lie? No, but yeah I'm human
I won't let my tongue lips mouth go to ruin
World's gone cold and that now shows
I'll be a heater to the world with my hot flows
If it's the last thing you do on your list
Bump it up to the first and listen to this

Chorus

There's so many lives that I can live
There's so many rhymes that I can fib
There's so many times I don't wanna live in my skin
There's so many people I can be
And I've so many faces you can see
And I've so many voices that I can sing but I can't
I gotta be me
