Somethin' Beautiful

Verse 1

I kick the knowledge for your ear drums and then some
It's beautiful baby real now ya feel me
Highest of heights bright lights and sight seeing
Correcting nonsense right right I might be it
Whosoever believe in me shall prosper
Well guess what, I'm believing and I prosper
Yes it's the new flavor in your ear
Listen up to who? Relikis say it now ya hear
The legacy's arrived stand tall we standing
Rambling rumbling juggling the answer
Who it is where He be is He reality
As a matter of fact fact it's better than that that
Cause we can't comprehend or fathom
The mysterious non stagnant ways of Love
Our minds are not complex enough to touch the above

Chorus

It's somethin' beautiful respect the life
And the culture it brings I'm show you the finer things
It's somethin' beautiful respect the life
And the culture it brings I'm show you the finer things

Verse 2

Wait honey, cause you don't wife it
There comes a time in a mans life when he likes it
You think about your ways and try to find a better way
I went thru the same process and struggle
Many a times I tripped and fell
But many of the times I learned up front to prevail
Behold a lady she keeps passing me by
P.p..pass pass.. p..pass passing me by
Think of a love letter since I have the gift of poem
Show em the underdog gets the beauty of it all
Something in your mind's eye was snapped
Something beautiful guides me to spit this rap
Common interest personality society's fatality
Real raw interest of the subject is withheld
The message is a silent one but still so beautiful
Won't be silent for long it's just too beautiful

Chorus

It's somethin' beautiful respect the life
And the culture it brings I'm show you the finer things
It's somethin' beautiful respect the life
And the culture it brings I'm show you the finer things

Verse 3

Take the niceness to heart I mean it
The more strenuous mind will make your back need
posturepedic
Take your role off unravel it and very slowly
Mad material but I see better days ahead
A golden pathway topped dressed in all white
Intelligent to notice blessings come my way
Back alley way thru the night a dangerous place
I'm a young man searching my soul
Erasing the past learn the lesson from the last one
I tried to tackle trouble it was fixing to blast one
I could not, by myself anyway
Realistic love up above keep shining
Brighter than zirconia and a real diamond
I use the parable tactics
Incomparable to comprehension of the glory
It's real beautiful I mean beautiful about the story

Chorus

It's somethin' beautiful respect the life
And the culture it brings I'm show you the finer things
It's somethin' beautiful respect the life
And the culture it brings I'm show you the finer things
