They call me Mr. Lucky  
Bad luck gonna follow me  
They call me Mr. lucky  
Bad luck and trouble gonna follow me  
Everything I touch just turn to gold  
That means I can't ever do no wrong

I woke up early one morning  
Mr. Lucky standing by my bed  
I woke up early one morning  
Mr. Lucky standing by my bed  
I listened real closely  
This here what he said

You was born for good luck, Johnny  
Bad luck can't do you no harm  
You was born for good luck, Johnny  
Bad luck can't do you no harm  
Keep your black cat bone and your mojo at hand  
I guarantee you never, you never go wrong

That's why the call me Mr. Lucky  
Bad luck gonna follow me  
That's why the call me Mr. Lucky  
Bad luck and trouble gonna follow me  
Everything I touch is turn to gold  
I never felt this way

That's right  
Bad luck gonna follow me  
I got luck on my side  
Every day and night
