We had a hail storm in California
Turned the beaches into blankets of white
and everyone took the streets
dancing and slipping on the ice
but you missed it all
yah you missed it all
cuz youre off flying high somewhere
and im getting to the point
where i dont really care
cuz

i can do what i want
i can make it alone
i can shake off the dust
got a heart of my own
it aint broken
it just needs a little mending

i can pick out the weeds
i can burn all the brush
just want to be free
for the carnival of us
gotta find myself
in all the time that were not spending

we had a 10 foot swell come into the coast
so we all paddled out to the break
but i sat there rolling with the sunset
with my thoughts
and my tears and my heartbreak
and i missed at all
yah i missed it all
I may be out of sight and of mind
but believe me when i tell you
baby i'll be fine

cuz i can do what i want
i can make i alone
i can shake off the dust
got a heart of my own
it aint broken
it just needs a little mending

i can pick out the weeds
i can burn all the brush
just want to be free
for the carnival of us
gotta find myself
in all the time that were not spending

im gunna get a wave that curls
from here to mexico
and you can get the girls
that youve been missing
im gunna be laying low
just feeling the breezes blow
and baby you'll never know
who ill be kissing

cuz i can do what i want
i can make it alone
i can kick off the dust
got a heart of my own
it aint broken
it just needs a little mending

i can pick out the weeds
i can burn all the brush
just want to be free
for the carnival of us
gotta find myself
in all the time that we're not spending

i can do what i want
i can make it alone
i can shake off the dust
got a heat of my own
it aint broken
it just needs a little mending

i can pick out the weeds
i can burn all the brush
just wanna be free
from the carnival of us
gotta find myself in that we're not spending
