There's a mattress on the floor  
The refrigerator's empty  
Strung lights above the door  
Wildflowers by the entry

Oh whoa  
Oh whoa whoa whoa whoa

There's a dusty window pane  
And we let the birds fly in  
Even when it starts to rain  
There's a rainbow in the kitchen

Oh whoa  
Oh whoa whoa whoa whoa

What good is life  
If there's no fight  
We're struggling but we're not alone  
You by my side  
We'll be alright  
It's ugly but it's beautiful

Baby it's tough times in America  
If love is free  
I got everything I need  
So take my hand and never let go  
Baby it's tough times in America  
If love is free  
I got everything I need  
This is la dolce vita

This is la dolce vita

This is la dolce vita

We read by candlelight  
The television's  
Never working  
But it's full of love tonight  
Even though

We both have nothing

Oh whoa

Oh whoa whoa whoa whoa

What good is life

If there's no fight

We're struggling but we're not alone

You by my side we'll be alright

It's ugly but it's beautiful

Baby it's tough times in America

If love is free

I got everything I need

So take my hand and never let go

Baby it's tough times in America

If love is free

I got everything I need

This is la dolce vita

This is la dolce vita

This is la dolce vita

Baby it's tough times in America

If love is free

I got everything I need

So take my hand and never let go

Baby it's tough times in America

If love is free

I got everything I need

This is la dolce vita (Yeah)

This is la dolce vita (Yeah)

This is la dolce vita
