I stripped to the puff just to find you fake it  
I got dried up and put away  
Real love at sea found the bottom baby  
I oughta fall when entertaining a stowaway

I stripped down till my faults and bones were naked  
I got treed by another lie  
Jipped in the mall felt the botulism  
I oughta push the whaler some say

I went down to the ball told my buff to break it  
We gotta wake and I'm gone away  
I skipped out to decline the ransom baby  
I can't forget the look of you after the review (cause  
some massy taint)

I guess our money doesn't tick as far as this  
convenience  
I guess I know we're teed-off when some day I wish I'd  
daunt you

Anorexia took me all the way, I will be back with a  
vengeance on a better day  
Adoration took my life away, I can only dream of better  
way

We live on fear, we dizz them down, come on baby  
We live on biz, be out to fall right away  
We cache our tears, the others turned down the lady  
We dizz them down, the others swing safe

Anorexia took me all the way, I will be back with a  
vengeance on a better day  
Adoration took my life away, I can only dream of better  
way

We took a chance, we come on to sanity  
We're damned sure with the fall around

Without chance are we wackily bound on sound  
Take sound, we'll lag away lag away

Anorexia took me all the way, I will be back with a  
vengeance on a better day  
Adoration took my life away, I can only dream of better  
way

Went somersault one summer wide good goings  
I went to some gun combats I'm just coming  
Got someone new I got sound go out go ribbons  
owings  
Went down so I damn summer I get summer I went  
sound

Down with the free dance Ami, why can't you end some  
two won?  
Love falling sent to screening, go low low my song

We live on fear, we do some jilt, come on baby  
We're dead and found, we test on count down away  
Let it be done right away  
We have some fear, we kiss them too right away

Anorexia took me all the way, I will be back with a  
vengeance on a better day  
Adoration took my life away, I can only dream of better  
way

(repeat)

We oughta go now, we down us who's gone  
We just summon to town doing some  
Got someone to summon to town, this the last dance  
go dance to manner woe

Anorexia took me all the way, I will be back with a  
vengeance on a better day  
Adoration took my life away, I will be back with of a, be  
back with of a
