You told me that I could leave if this was something  
that I wanted  
So I did

Miles and miles of road between us  
Still my heart is gravitating to your door

I think about you  
I think about it I think about it  
I think about it when Iâ€™m tired of thinking  
I think about you oh I think about us  
I think about it when Iâ€™m. I think about it when Iâ€™m  
gone

On my radio your songs are so much louder than Iâ€™ve  
ever heard

I am begging for youâ€¦  
I guess I didnâ€™t hate youâ€¦â€¦
