I Still Believe
Ruby Paul original
I still need that special love you gave me
I know no other kind of love will do
You're the only one I ever needed
The only one I dream about is you
But you went away
Said you couldn't stay
Now I hope and pray
That you'll come back again some day
And I still believe that we'll get back together
That's the only way I can make it through
I still believe that we can last forever
After all I still believe in me and you
I still wear the locket that you gave me
Your memory in my heart still beating strong
I still believe the promise that you made me
When you told me I was the only one
But you went away
With another girl
Left me all alone
While you were making love to her
And I still believe that we'll get back together
That's the only way I can make it through
I still believe that we can last forever
After all I still believe in me and you
